## Portable Powered Column Array

VAL audio

Die Liebe zur Musik

The VAL audio X-Line 12 all-in-one powered PA features an acoustically optimized column array featuring a 2-channel digital mixer, a full suite of professional DSP, class-leading audio connectivity and Bluetooth functionality. Enjoy unmatched power, flexibility and performance in a sleek, compact package.

The system consists of a 15 mm wooden, ported, powered subwoofer enclosure that houses a high power, high excursion 12" subwoofer capable of frequency output down to 35 Hz. The bi-directional aluminum pole's connection to the subwoofer is secured using a magnetic pin system and the column array is held to the sub pole. The signal is internally routed to the components via the aluminum pole which serves both for connectivity between the subwoofer and array as well as securing the two together.

The column array consists of a wooden enclosure housing Eight 3.5" neodymium drivers. Coupled with the 12" subwoofer the system delivers a class leading 132 dB max SPL. The eight drivers control high-frequencies with 120° of horizontal coverage and 40° of vertical coverage to ensure suitable output for all types of audiences and applications.

The aluminum pole and column array come pre-packaged in a easy carrying bag which ensures complete portability.

The in-built DSP and processing engine allows for easy setup via five presets (Normal, DJ, Voice, Live, Flat) on a simple rotary switch, visual monitoring of Power, Signal and Clip status, input level control of MIC/Line/RCA and Bluetooth inputs to ensure optimal gain structure.

Enjoy unmatched power and performance in a sleek, compact and lightweight package with fewer pieces of equipment using the X-Line 12. Connect a microphone, instrument, mobile device and wireless rig using the simple I/Os and pro-grade Neutrik connectors and sophisticated in built Bluetooth.

X-Line 12 is ideal for DJs, musicians, entertainment venues, corporate presenters, rental companies and houses of worship. It's the perfect solution for anyone who demands best-in-class power, acoustic performance, control and connectivity in a stylish, full-featured column PA that's ideal for both installed and portable applications.
